Canadian Council for Refugees,
Attn Janet Dench

Dear Janet;

I am writing on behalf of the Canadian Unitarians For Social Justice. Our board of directors shares your concerns about the direction of the Harper Government's refugee policies.

We would like you to add our name to the list of organizations calling for MP's to defeat bill C-49. We would like to be part of the statement:

"The following organizations call on Members of Parliament to defeat Bill C-49 at second reading. The government should address the problem of smuggling in ways that do not punish refugees."

Please keep me informed as this situation develops.

In Faith,

Frances Deverell
